- 1500+ workouts with instructions in your goggles
- 45+ training plans
- TrainingPeaks integration, import your workouts
- Workout builder, create your own workouts

Tracked Metrics

HeadCoach™ Skills Metrics

FORM App

Customize goggles settings, display, and metrics. Access workouts & training plans, and improve technique with HeadCoach™.

Watch Compatibility

In open water, in-goggle sensors provide time and stroke rate. Additionally, pair to a Garmin or Apple Watch to see GPS data in-goggle such as pace/100m and distance.

Real-Time Metrics

In-goggle sensors use advanced machine learning algorithms to accurately and automatically detect stroke type, start/stop, and swim metrics.

Patented Optics

Customizable, see-through display with anti-fog coating, mirrored tint and left or right-side eye setting.

SwimStraight™

This Premium Feature utilizes a built-in digital compass to provide real-time directional headings in-goggle during open water swims.

Auto-Syncing

Automatically sync completed workouts, training plans and free swims to the app via Bluetooth, then share to Strava, TrainingPeaks and more.

Customizable Fit

Proprietary eye seals designed to contour to a variety of facial structures and interchangeable, arched nose bridges provide a comfortable and secure fit.

Advanced Training

Follow one of our 1500+ workouts, 45+ training plans or upload your own, you'll get step-by-step instructions in your goggles. Know exactly what to do, and when to do it.
