100% ORGANIC WAXES

*Be in harmony with nature*

# ***NZERO Organic Waxes: Be in harmony with nature***

## **100% vegetal and natural additives**

All our organic waxes are made with 100% vegetal and natural ingredients. A perfect blend based on vegetal extracts with no toxic additives. Our main objective: a maximum enjoy with a sustainable ski.

## **100% innovation**

More than five years of co-operation with international laboratories, using the newest technologies and innovative natural additives. Result: a new green wax with the best market features.

## **100% effective**

Protect your material and ensure its optimum performance. Providing the maximum sliding, improving your control and complying with the highest requirements of top users.

## *Ski services and rentals*

Protecting those who care for your skis through our 100% natural solutions.

### **0% PFCs, fluorates and paraffins**

Another challenge achieved: developing products 100% free of mineral oils, paraffins and other high toxic pollutants. Our track on the snow, will mean our environmental commitment.

### **0% toxic fumes and less smoke emissions**

For all professional skiman who spend hours waxing and taking care of skis and boards, we have developed a full range of natural waxes 0% toxic and with less smoke emissions.

## nzero Brushes

### *Horse Hair Brush*

- 120 mm x 80 mm x 30 mm
- Ergonomic handle made of natural wood.
- Brush for a perfect finish polishing.
- Ideal for brushing liquid wax applications.
- Eliminates static build-up.

### *Tampico Brush*

- 120 mm x 80 mm x 30 mm
- Ergonomic handle made of natural wood.
- Removes excess wax.
- If you want to have a single brush replacing nylon and plastic brushes, use the NZERO Tampico brush. It is the most versatile.

### *Brass Brush*

- 120 mm x 80 mm x 30 mm
- Ergonomic handle made of natural wood.
- Brass bristles clean old wax and dirt from the base structure of the ski.
- Ideal for preparing the base before hot waxing.
- Brass brush prepares P-Tex surface.

## nzero *Scraper*

### *Methacrylate Scraper*

- 130 mm x 60 mm x 4 mm
- Laser marking, no ink used.
- Made with notch on one side to scratch off the wax left over the edges of the skis or board.
- Can be sharpened with a flat file or sandpaper.

## nzero *Wax remover*

- 250ml, 500ml and 1000ml
- Cleaning fluid for all types of surfaces. Removes wax and dirt residues and prepares the surface for a new waxing.
